

Without a doubt, pet ownership can be a joy, but it comes with work and responsibility. Cleaning up after them, daily walks, scooping the litter box, grooming, the cost of yearly vaccinations, spay or neuter surgery, an obedience class, preventative medicines, a registration tag and a microchip come at a price. Pets simply need us to be reliable and in return their unconditional love and companionship makes it worth the cost and the effort.

IT IS YOUR RESPONSIBILITY TO
TO KEEP YOU PET SAFE.

Does Your Dog Escape?

If your dog is running loose, he's in danger.

He could be hit by a car, injured in a fight with another dog, or hurt in any number of other ways. You're also liable for any damage or injury your dog may cause, and you may be required to pay a fine for not following the local leash law. If you feed a stray you are a new pet owner

Swimming Pool

**Some people seem to enjoy leaving
the swimming pool gate open.**

Why do we need to keep the gate closed?

For several reasons;

- 01) **It is a RULE**
- 02) **You must have a key and pool passes to enter.**
- 03) **Should our insurance company acquire pictures of the gate open and not attended, Our insurance rates will be raised.**

**Thanks for understanding
and being responsible.**

Our Next Meeting will be
Tuesday, July 9th
6pm at the Clubhouse.

Our Members voted to use NFNCC Club Funds towards five projects.

- 1) Replace the outdoor shower at the pool
- 2) Repair the ladies shower restroom area at the pool
- 3) Rebuild the fence around the main dumpster
- 4) Replace the mini-blinds in the clubhouse windows
- 5) Paint the community mailbox area.

The work will be done by volunteers

Please take the time to
Thank them for their service.

These are the projects you helped fund
by attending and supporting our events.

Thank You for your Support !!

**Here are a few good
“Very Interesting”
things to know that
I would like to share with you.**

Mosquito Spray

A man at the party sprayed the lawn and deck floor with Listerine and the little demons disappeared.

Fill a 4-ounce spray bottle and use it around whenever you see mosquitoes.

Natural spider killer

Keep this in mind if you start seeing lots of spiders around your place.

Natural spider killer or prevention.

Take one cup of vinegar, one cup of pepper, a teaspoon of oil and liquid soap.

Put it into a spray bottle and spray along the outside of your outside door and along windows; refresh after it rains.

Re-Grow Roses!!!

The secret of successful rose cuttings is the humble potato!

Before planting cuttings, push the bottom end into a small potato, which is believed to keeps the cuttings moist as they develop roots. It sounds crazy,

But I have seen a row of allotment roses as proof it works

And for all the Gardeners out there...

1 tsp Epsom Salt in 4 cups warm water spray on plant and then 10 days later it produces more fruit due to boost of magnesium... especially for tomatoes peppers and roses

Irish Spring and a cheese grater.

Apparently squirrels hate the smell of the soap, so they'll stay out of your garden, as well as deer and mice.

Thank You Mrs. Harris for these tips.
